V. Course Requirements

Grading is based on a group project, individual projects and presentations, class participation, tests, and a quiz. **Late work will not be accepted after the last class** of the semester (May 3, 2024). **Classroom presentations cannot be made-up.** The group project will require a team of 3-5 class members to work together to create an international business proposal. More details will be shared in class. The individual projects will include a course planner assignment and a corporate case study focusing on one of the 50 largest US companies. The tests will be drawn from the reading and lecture material and are open book. Make-up exams are not typically granted without a bona fide reason for missing the exam (court date or military service are examples). Class participation will be based on attendance, the quality of interaction and involvement during discussions, and interaction with other students (note: habitually arriving late or missing class will impact this portion of your grade).
